Tools to Enhance Canvas

Northwestern's rich environment for innovation in teaching and learning finds expression in many ways, including with Learning Apps that can be used in any Canvas course at Northwestern to provide an additional tool or functionality. Learning Apps extend Canvas in specific ways for faculty and students, from built-in analytics to customizable discussion boards. The catalog below offers Apps developed here at Northwestern and by 3rd parties. Each app's "View Details" explains what the app is for and provides a single-click method instructors can use to place it in their courses.

Discussion Hero

A Heroic interface for Canvas discussion forums.
